LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **Answering "where did you get my address?" in seconds is a mark of seriousness as much as an obligation.**

What the record shows immediately

Element	Available?
Address origin and its date	**Yes**
Message sent, as it went out	**Yes**
Who validated it, or the sending mandate it went out under	**Yes**
Dated fact justifying the contact, with its source	**Yes**
Exchanges since	**Yes**

What it gives in practice

Requests received this half-year	Count

Total	**14**
Closed on the first answer	**12**
Leading to an objection, recorded the same day	**2**

> A surprised recipient who gets **"you filled in our form on 12 March, here is the line"** does not ask twice.

The data kept without a time limit

The objections. They outlive the deletion of a prospect — otherwise deletion would reopen the door the following month. They allow one thing only: **knowing this address must not be written to.**

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
