Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **A field with no source is not written.**

Possible origin of the 190	Checkable?
Undated manual entry	No
File import	No
Provider whose contract has ended	No

What every field written by the agent carries

Item	Example
Source	Public register · company website · prospect's own statement
Date obtained	March 2026

Item	Example
Failing that	"keyed in by a salesperson on ..."

What happens to the 190

Action	Done?	Why
Marked "unsourced" on the record	Yes	Visible before any call
Erased	No	Some are right; erasing accurate information is a pure loss
Used to compute a score	No	A score must be explainable

A person asking where information about them came from **is entitled to know**: that is an obligation, not a courtesy.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
