Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Both outcomes are drafted, not only the one that acts.** Closing a signal commits as much as keeping it open: if the payment goes out and the account was fraudulent, it is the reasoning for the closure that will be read again.

Version A — payment suspended pending verification

Section	Content prepared
Subject	Suspension of the €84,200 payment to supplier Verlaine Composites, instalment of the 10th
Reasoning	**The four departing traits, each with its source**
Measure	Suspension until confirmation by call-back; later instalments put on hold
Signatories	**Finance director (decision) and treasurer (execution)**
Supplier notification	**Letter attached**: notice of the postponement, reason stated without imputation, request for confirmation through the usual channel

Section	Content prepared
Next step foreseen	Referral to the audit committee if the call-back does not disprove it

Version B — payment maintained and signal closed

Section	Content prepared
Subject	Closure of the signal, payment maintained on the due date
Reasoning	**Change of bank announced in January, confirmation obtained, document added to the file**
Condition written in	**The closure holds only if a confirmation obtained outside email is on the file**
Signatory	Finance director
Traceability	The reason for closure is kept and will make the decision readable again at fourteen months

What the preparation changes in the calendar

Step	Without a built file	With a built file
Gathering the documents	**Several days, between two closes**	**40 minutes, with no human intervention**
Decision	**After the gathering — day 11 in the previous case**	**6 minutes of reading**
Notification to the supplier	To be drafted	**Written, sent the same day**

> **The agent signs neither version.** It writes both so that the decision is a choice of a few minutes between two reasoned texts, and not several days' work at the end of
