File acquired in 2025 — 3,120 lines re-sourced

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

4,800 lines taken one by one · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The file was not unusable by nature: it was unusable for want of an origin.** The information owed to the person — **including the source of the data** — must reach them at the latest with the first communication (Article 14 GDPR). This document shows how that origin was rebuilt, line by line.

What was blocking it, and what was done

State	Lines	What was missing	Treatment
File as purchased	4,800	**No origin, no collection date**	Unusable as it stood
Lines re-sourced	**3,120**	—	**Nameable origin, collection date, published business address**

State	Lines	What was missing	Treatment
Lines set aside	**1,680**	No public trace, or strictly personal address	**Set aside AND flagged, so a future import cannot bring them back**

Where each rebuilt origin comes from

Source	Lines	What it establishes
Company website, contact page	1,640	Address published by the company itself
Legal notices on the site	710	Official contact address, usually the most stable
Public company registers	**520**	Existence, activity and address of the establishment
Official trade directories	250	Declared professional qualification

What the first message to these contacts carries

Notice	Content	Why it is there
Real origin of the address	« Your address appears on your company's website »	**That sentence is what makes the approach defensible — and the message credible**
Sender identity and address	Company name, postal address	The recipient must know who is writing
Purpose of the approach	New trade range	Directly related to the recipient's profession
One-click objection	Link in header and footer	**Saying no must cost a click, not a letter**

What was not done, and the law that explains it

Practice	Status	Reason

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Wholesale scraping of a professional directory	**Ruled out**	**Database law prohibits extracting a substantial part of a protected database; those directories' terms of use forbid it too**
Company-by-company collection from published pages	Applied	Every line carries the page address and the date it was read
Strictly personal addresses found online	Ruled out	Unrelated to a professional approach

What it is worth

Indicator	Value
Trade segment before	6,400 contacts
After adding the re-sourced lines	**9,520 contacts — + 49 % on the margin core**
Additional acquisition cost	**€0**
First send proposed	**800 contacts, to measure before opening all 3,120**

> **A file with no origin is not a forbidden file: it is a file to re-source.** The work costs machine time, not human time, and it gives the seller back a sentence he can stand behind in front of any recipient.

CRM manager's decision

First send approved for 800 contacts (yes / no): _____

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
