Eleven orphan obligations

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example
This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No replacement is appointed by the agent.** Entrusting a regulatory obligation to somebody is an act of organisation, and it commits the person appointed.

Departure	Obligations concerned	Nearest deadline
2024	**4**	03/2027
2025	**5**	**11/2026**
May 2026	**2**	**09/2026**

Leaving the company triggers closing access, returning equipment and final pay. It does not yet trigger reassigning regulatory obligations, because that list did not exist at that point — and it is now written.

The three due within four months

Obligation	Deadline	Department	Last evidence filed by
A	**15/09/2026**	Operations	**Someone still present**
B	**30/09/2026**	Technical	**Someone still present**
C	**30/11/2026**	Quality	The departed owner

> **Seven of the eleven have their last evidence filed by somebody other than the assigned owner.** That is often the best-placed person, and they are sometimes still here — the information existed, it was simply connected to nothing.

What is provided

Element	Provided?
The 11 obligations and their deadlines	**Yes**
The department it attaches to	**Yes**
The author of the last evidence	**Yes**
A proposed owner	**Yes — proposed, never appointed: the appointment stays with the department**

What would prevent it in future

A departure that queries the obligations register just as it queries access rights. That is a point to add to an existing procedure, not a new procedure.

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
