Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **The agent does not say whether the company is in breach.** A breach is assessed against the applicable text, the situation, and sometimes a tolerance — three judgements that belong to the compliance team, and to which the agent brings the complete file.

The three possible readings

Reading	What it would take to decide
The obligation was met, the evidence was not filed	**Ask the owner for the document**
It was not met	**Confirm, then meet it**
It no longer applies	**Check the threshold or the activity concerned**

> **The third reading is not theoretical:** four register obligations attach to an activity sold in 2025 and keep producing deadlines. They are flagged separately.
