# Containment mandate — scope and rollback

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

2 named objects, executed in 4 minutes · fictional document

**Fictional document — demonstration example**

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

**Fictional document**, produced for demonstration. **Containment means isolating an account or a machine to interrupt an action in progress.** It touches production: it therefore executes under a written mandate naming the objects one by one, dated and withdrawable in one word.

## What the cut-off touches, costed before the decision

| Flow carried by the account | Effect of the cut-off | Workaround prepared |
|---|---|---|
| **Stock synchronisation for the 84 stores, 4 a.m.** | **Interrupted** | **Switch to the standby account already provisioned — 2 minutes** |
| Payment connector of the online shop | **None** | Checked: it uses another account |
| Month-end accounting export | **None today** | Next run in 6 days |

## The terms of the mandate

| Clause | Content |
|---|---|
| **Scope** | **The SVC-COMPTA account and workstation P-1147, by name — no other object** |
| **Gestures covered** | **Disabling the account, network isolation of the workstation, and nothing else** |
| **Term** | **Until 6 a.m. this morning, extended or withdrawn in one word** |
| **Notification** | **CISO and operations on-call informed to the second of execution, reason and chain attached** |
| **Rollback** | **Prepared and tested — 90 seconds, executable without the agent** |
| **Trail** | **Who signed, at which second, on which signal, with which chain of evidence** |
| **Time to execute** | **4 minutes after signature** |

## Evidence frozen before the gesture

| Element | What is preserved |
|---|---|
| Window | **03:00 – 05:00** |
| Sources copied | **6** |
| **Sealing** | **A hash per copy — the signature proving a file has not been altered** |
| **Reason** | **Containment often erases the very traces you needed to keep; these are frozen beforehand** |

Signature of the mandate — name, role, time: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
