Morning watch — 4 findings

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

08/08/2026 · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No named result appears in this document** — failures are given per question, never per person.

#	Finding	What triggered it	At stake	Recipient	Chase
1	**1 question failed by 71%**	**168 wrong of 236**	**The answer is not in the material**	**Whoever wrote the module**	7 d
2	**Module 4 against note of 19/05/2026**	**Two orders of steps**	**A procedure**	**Both authors together**	**48 h**
3	34 completions on a changed version	**Change of 12/02/2026**	**3 sections of 34**	Training lead	7 d
4	41 employees beyond the frequency	**Training plan**	An organisation	**Training lead, never the manager**	7 d

> **The second finding goes to both authors together.** Sent separately, each would have assumed the other was current — the commonest way a divergence survives being flagged.

Five guarantees that make your staff play along, and that is what makes the results worth using

What the agent rules out	Why
Report a result to a manager	**The quiz stops being a learning tool**
Grade or rank a learner	**Same**
Measure time spent	**It measures reading speed**
Flag a learner who fails	**They would stop before the threshold**
Teach what is not in the material	**An invented answer is learned then passed on**

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
