Twenty-three contracts — old template version

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The agent does not say which must be revisited.** An old clause is not an invalid clause, and revisiting a signed contract requires an amendment, hence the other party's agreement.

The three amendments of 12/06

Amendment	Nature	Contracts affected of the 23
Liability clause rewritten	**Substantive**	**23**
Data-processing mention added	**Substantive**	**23**
Internal cross-reference corrected	Drafting	**6**

The third amendment affects only six contracts of twenty-three. Counting all twenty-three as "affected by three amendments" would open seventeen files with no

> purpose.

The 23, by renewal date

Renewal period	Contracts	What it allows
Before December 2026	**9**	**New version with no negotiation**
First half 2027	7	Same, later
Second half 2027	4	Same
No renewal date	**3**	**Amendment required**

The cause, and its fix

Element	Finding	Fix proposed
Template location	**Two copies, one in a shared folder**	**A single location**
Nature of the fix	—	**A setting, not an instruction**

An instruction to stop using the old copy would hold for a few weeks. A template that exists in one place holds on its own.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually

connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
