Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **You remain the issuer of the quote; the agent is the tool that composes and sends.**

What goes out with no human intervention

Bound	Value	Set by
Lines entirely from the catalogue	**Required**	**The rule**
Amount under ceiling	**To be set**	**You**
Already registered customer	**Required**	**The rule**
Template validity period	**Required**	**Your template**

Coverage over the past year	Count	Share
Quotes within the four bounds	**531**	**87 %**
Quotes escalated	**81**	**13 %, about one per working day**

What escalates, and why

Case	Count	Reason
Off-catalogue requests	41	No price to ground
Discounts not covered by a grid	—	See the discounts tab
Prospects never invoiced	—	Payment terms to set
Quotes above the ceiling	—	Your bound

The measured gain

Indicator	Before	After
Issuing time on the 531	3 days	20 minutes
Quotes followed up at validity deadline	0 of 141 unanswered	All

> **A customer kept waiting three days has time to ask somebody else.**

What the quote carries to stay defensible

Item	Role
Catalogue version applied	Defending the price six months later
Validity period	Knowing when it stops binding
Name of the person it goes out under	A signature

For the company to settle

Direct-send ceiling: _____ €

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
