Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Only three acts run without being asked, they are named, and each is withdrawn in one word.** Everything that commits the company to a new period goes through a signature — handed over in minutes, with the complete file behind it.

The three automatic acts

Act	Trigger	Reversibility	What it produced
Filing the signed contract, obligations extracted, deadline schedule open	Last signature received	**Withdrawn in one word**	412 contracts tracked to the clause

Act	Trigger	Reversibility	What it produced
Alert 30 days before entry into a notice window, priced file assembled	Notice date	**Lead time adjustable, withdrawn in one word**	**€71,000 of renewals taken back**
Stopping a signature chaser	Counterpart signed	—	No chaser sent after signature

The automatic correction that works both ways

If an amendment changes a deadline, it is corrected and flagged, with the old and the new date side by side, and the amendment clause that changes it. **A deadline never moves in silence:** the move is written to the log, with the document that grounds it.

What goes through a signature, and how fast the file arrives

Act	Who signs	Time for the file to be ready
Renew	Head of legal	**Under 10 minutes**
Renegotiate	Head of legal	**Under 10 minutes**
Terminate	Head of legal, or mandate under €150,000	**Under 10 minutes, or filed in 8 minutes under mandate**
Commit above €250,000	Executive board	**Under 10 minutes**

What the log keeps

Element	Volume over the half-year	Use
Contracts tracked	**412**	The whole portfolio

Element	Volume over the half-year	Use
Obligations and deadlines	**1,840**	Each with its clause
Deadlines fallen due	**96**	**0 missed**
Decisions traced	All	**Who decided what, on what date, on which file**

And control stays with the client wherever they are: web dashboard and supervision from a phone — **approving a draft, opening a notice period or withdrawing the mandate takes one message.**
