

Technical framework — where your negotiated terms live

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 24/09/2026

Local inference or an isolated resource in France · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The four things a competitor would pay to read are your prices per lot, your liability caps, your penalty rates and your supplier price grids.** This exhibit says where they live, who reaches them and what leaves — **nothing**.

The two possible architectures

Architecture	Where the computing happens	What crosses an outside network	For whom
Local inference	On a machine at head office	Nothing	Companies that already host
Isolated resource hosted in France	On an environment dedicated to Velmaris	An encrypted flow, with no exit from the European Union	No pooling with any other company

LINDBERGH FORMATION — a simplified joint-stock company with share capital of €250,000 · Registered office: 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114 · SIRET 817 946 114 00029 · VAT FR 60 817 946 114 · "Blue Lemon Agent" trade mark · Training-provider registration no. 119 108 635 91 (Île-de-France prefect — this registration does not amount to State approval) · Qualiopi certified, no. 03896, for the "training actions" category · contact@bluelemonagent.ai · dpo@bluelemonagent.ai · Hosted in France.

What is protected, and by what

Protection	Implementation	What it makes verifiable
Encryption	In transit and at rest	—
Role-based access	Rights follow the job: a contract administrator opens the signature workflow, not the financial terms of client contracts	The list of roles and their rights, exportable
Logging	Who consulted what, when, file by file	An audit answer in 10 minutes
Location	France, under French law	Architecture designed to reduce exposure to extraterritorial legislation, location alone not being enough to guarantee immunity, including against a US provider hosting in Europe
Use of the data	No contract is used to train a model	A written contractual undertaking

Why this is a commercial argument, not only a technical one

Fact	Value	Consequence
Contracts carrying a confidentiality clause	208 out of 412	The confidentiality undertaking is held by the architecture
Clients requiring hosting in France	3 (2 social housing landlords, 1 local authority)	A condition of market access
Last tender	Scored out of 5 points	Box ticked, technical sheet attached and up to date

Technical sheet kept current continuously: hosting, subprocessors, retention periods, who accesses what, and the date of the last check. **It is asked for at every renewal and it used to take three days to compile.**

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
