Gap tracking — what really explains them

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **Individual tracking is lawful. It is simply less effective here — and both set-ups are equipped.**

The five causes of a gap, and what tells them apart

Possible cause	Told apart by PER-PERSON tracking?	Told apart by PER-LOCATION tracking?
Undeclared breakage	**No**	**Partly**
Unrecorded issue	**No**	**Yes**
Receiving error	**No**	**Yes**
Part taken for a repair	**No**	**Yes**
Mis-scanned code	**No**	**Yes — neighbouring labels**

What per-location tracking found

Finding	Value
Gaps in total	**9**
Clustered on two locations	**7**
Real cause	**Labelling confusing two neighbouring items**
Time to fix	**1 day**
Residual gaps after the fix	**0**

> The two storekeepers concerned, **Sofiane Adjali and Hélène Trentin**, had nothing to do with it: **it was the label.** Individual tracking would have produced two names and left the label in place.

If you want the individual level: the three conditions, ready

Condition	Basis	What the agent produces
Proportionality	**Art. L1121-1, Labour Code**	**Reduced scope, justified in writing**
Prior information	**Art. L1222-4, Labour Code**	**Dated notice, ready to circulate**
Works council consultation	**From 50 employees**	**Full file: purpose, data, retention**

That file is supplied **the day you ask for it**, with no further development.

For the company to settle

Tracking level chosen: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
