Seven items, supplier lead time met

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **It is not supplier bad luck: it is a wrong reorder point.**

Finding	Value
Items concerned	**7**
Urgent orders in six months	**28**
Stated supplier lead time met	**26 of 28**

Why the average fails on these items

What the average says	What actually happens
40 units a month	**Zero for three weeks, 40 in two days**

Safety stock computed on the average does not cover the peak.

What is proposed

Basis of calculation	Adopted?	Scope
Maximum consumption during the lead time	**Yes**	**The 7 items concerned**
Average consumption	**Kept**	**380 of the 412 items**

Raising safety stock everywhere would tie up money **without removing a single urgent order.**

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
