

January 2024 rates — 412 journeys

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 24/09/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No rate is changed**. Rates corrected by a tool propagate to hundreds of reimbursements before anyone notices.

Element	Value
Date of the stored rates	January 2024
Journeys concerned this year	412
Kilometres	68,400
Accounting line used	Provided
Rates to be applied	Not determined by the agent

The choice of rates and their tax and social consequences belong to the accountant. The agent provides the date, the volume and the accounting line: that is what is needed to put the question, and nothing more.

The 7 journeys with a pool car booked

Journey	Date	Km reimbursed	Car booked in the same name	Question put to
1	12/02	140	Yes	Employee A
2	07/03	96	Yes	Employee A
3	22/04	210	Yes	Employee B
4	19/05	78	Yes	Employee B
5	03/06	185	Yes	Employee C
6	24/06	112	Yes	Employee C
7	15/07	164	Yes	Employee D

A booked car is not a used car. A booking cancelled late stays in the planner, a vehicle can be unavailable on the day, and a journey may have been made by two people.

Who the question goes to

Recipient	Asked?
The 4 employees concerned	Yes
The approver	No, not first
Finance	No

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
