Guaranteed or not, never in between

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **"We will do our best" protects the hotel legally and disappoints the guest in fact.**

Request	Guaranteed?	Handling
Bed type	**Yes**	**Allocated immediately, confirmed in writing**
Adapted room	**Yes**	**Same, and blocking**
Extra bed	**Yes**	**Same**
View, aspect, specific room	**No**	**Noted, passed on, announced as not guaranteed**
Early arrival	**No**	**Same**

The sentence used

"*Your request is noted, it is not guaranteed*" — and never "we will do our best".

Measure	Value
Non-guaranteed requests actually met	**68%**

"We manage it two times out of three" beats a vague formula: it is true, and it is checkable.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
