Technical framework — where your negotiated terms live

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Local inference, role-based access · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **Local inference means the model computes on your machine: the text of a framework contract crosses no outside network to be analysed.** The other available route is an isolated resource hosted in France, dedicated to the company, with no pooling.

Why this is a purchasing argument

Information	What it is worth in a negotiation	Where it stays
Volume placed with a supplier	**€2.9M at Halbrand — their dependency and yours**	**Inside your walls**
Gap to the second source	**€46,000 a year — your exact room to move**	**Inside your walls**
Rebate tiers reached	The amount you can claim	Inside your walls

Information	What it is worth in a negotiation	Where it stays
Line stoppage costs	What a service guarantee is worth	Inside your walls

The arrangement, point by point

Element	What is put in place
Location	**A machine at the plant, or an isolated resource hosted in France, under French law**
Transfers	**Deployment objective: processing and access within the European Union — architecture designed to reduce exposure to extraterritorial legislation, location alone not being enough to guarantee immunity**
Training	**No purchasing data trains any model**
Role-based access	**Rights follow the job: a category buyer opens their categories, not other people's terms**
Encryption	In transit and at rest
Log	**Who consulted which term, who covered which order, to the second**
Supervision	**Web dashboard and supervision from a phone**: approving an above-cap order, withdrawing a mandate
Higher-tier options	SecNumCloud and hardened hosting according to the level required

The log answers a statutory auditor in one page when they ask who committed which spend, on what contractual basis and under whose authorisation. That page is produced in a few seconds, for any date in the financial year.

The next step proposed

Scope	Volume	State of readiness

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

9 direct purchasing categories	**€18M a year**	**Covered**
4 subcontracting categories	**€3.1M a year**	**22 contracts already read, projection deliverable within 3 days**

Opening the subcontracting scope — decision and date: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
