218 orders ready, €4.58M · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **A mandate is a written, capped, dated authorisation, withdrawable in one word: it states exactly what the agent executes alone.** It is signed once and changed in one sentence.

What is ready before signature

Element	Value	Status
Orders drafted in the ERP	**218**	**Complete and checked**
Suppliers involved	41	All referenced
Total amount	**€4.58M**	Plan B retained
Fields filled per order	Part number, quantity, verified contract price, need-by date, incoterm, accounting code	**Every line carries the framework contract number that grounds its price**

Element	Value	Status
Equivalent manual keying time	**31 hours**	**Handed back to the two supply planners**

The terms of the mandate

Clause	Content
Scope	**The 9 categories of the chosen plan, the 143 referenced suppliers, and nothing beyond**
Overall cap	**€4.58M for the quarter**
Per-order cap	**€25,000 — above that, presented for signature**
Orders above the per-order cap	**14 of 218, ranked by urgency**
Price	**No issue above the verified contract price**
Term	**Until 30/06**
Withdrawal	**In one word, at any moment, including from a phone**
Trail	**Issue logged: who covered it, which plan, which contract, to the second**
Time to execute after signature	**6 minutes for the 204 covered orders**

The mandate puts the decision where it belongs: procurement settles the plan, the scope and the caps — strategy work — and the execution of the 204 orders that follow mechanically takes six minutes rather than a week for two people.
