Position: for the round or for the person

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **A company vehicle's position is company data; a driver's speed is data about them.**

What position is used for today

Use	Beneficiary
Knowing where a round stands	**Operations**
Warning a customer of a delay before they call	**The customer**
Replanning the end of a day	**The driver**
Recording real service times by zone	**The following rounds**

It is this use that revealed the **40 minutes lost daily in the city centre**, which the "optimal" plan did not count.

If you want the individual level

Condition	Basis	Supplied
Proportionality	**Art. L1121-1, Labour Code**	**Yes**
Prior information	**Art. L1222-4, Labour Code**	**Yes**
Works council consultation	**From 50 employees**	**Yes**

The figure to know before comparing drivers

Source of variance	Share explained
Zone and address type	**80 %**

> A driver assigned to city centres and upper floors without lifts **will always be "slower" than another.** Comparing them without correcting for the zone **means measuring their assignment.**

The measure proposed

Service time by zone and by address type. That is what makes rounds achievable, **and it is not fixed by driving faster.**

For the company to settle

Measurement level chosen: _____

Retention period for positions: _____ days

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.
