Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document: patient, practitioner and dates invented for the demonstration.

The protocol line applied is displayed next to the proposed referral — the coordinator sees the rule at the same time as the result, and can overrule it in one click.
