

Technical framework — where your volumes live

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 24/09/2026

Local inference, role-based access · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **Local inference means the model computes on your machine: a sales line does not leave your network to be analysed.** The other available route is an isolated resource hosted in France, under French law, dedicated to the company.

Why this is a commercial matter

Information	What it is worth to a third party	Where it stays
Volumes by chain	The company's dependency, figure by figure	Inside your walls
Promotional elasticities	+ 187 % at a 30 % discount: the negotiating floor	Inside your walls
Service level by SKU	The families where pressure works	Inside your walls

Information	What it is worth to a third party	Where it stays
Shortage and overstock costs	What a penalty really costs	Inside your walls

The arrangement, point by point

Element	What is put in place
Location	A machine at the company, or an isolated resource hosted in France, under French law
Transfers	Deployment objective: processing and access within the European Union — architecture designed to reduce exposure to extraterritorial legislation, location alone not being enough to guarantee immunity
Training	No sales data trains any model
Role-based access	A supply planner opens their families, not the margins or the retailer agreements
Encryption	In transit and at rest
Log	Who consulted which forecast, corrected which assumption, settled which volume, to the second
Supervision	Web dashboard and supervision from a phone: approving a commitment, withdrawing a mandate
Higher-tier options	SecNumCloud and hardened hosting according to the level required

The log makes a monthly committee unarguable three months later: which forecast was on the table, which assumptions carried it, who settled which volume and at which second. That page is produced on request, for any date.

The next step proposed

Scope	Status	Costed gain
-------	--------	-------------

LINDBERGH FORMATION — a simplified joint-stock company with share capital of €250,000 · Registered office: 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114 · SIRET 817 946 114 00029 · VAT FR 60 817 946 114 · "Blue Lemon Agent" trade mark · Training-provider registration no. 119 108 635 91 (Île-de-France prefect — this registration does not amount to State approval) · Qualiopi certified, no. 03896, for the "training actions" category · contact@bluelemonagent.ai · dpo@bluelemonagent.ai · Hosted in France.

9 families	Covered	€620,000 of cash released
480 SKUs	Ready, tested on 3 families	Error per SKU 21 %
Pairing with the procurement planning agent	Costed on the 3 tightest families	8 fewer days of cover at constant service level, that is €240,000

Pairing study — decision and date: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
