Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **Without the journey, an allergy note exists in the system and nowhere it serves — and everybody believes the subject is covered.**

Item	Kept?	What it allows
Items ordered, total, time	**Yes**	**Preparing and billing**
Complete journey of an allergy note	**Yes**	**Knowing WHERE it was lost**
Stock-outs and their lag	**Yes**	**No longer accepting on a sold-out item**
Gaps between announced and billed total	**Yes**	**Fixing a setting, not a practice**
Suggestion acceptance and removal rates	**Yes**	**Judging the rule**
Anything describing a customer	**No**	**Of no use for preparing or billing**

The four steps of an allergy note's journey

Step	Traced?	Where the 7 notes were lost
Entered at order taking	**Yes**	**Passed**
Recorded	**Yes**	**Passed**
Displayed on the preparation slip	**Yes**	**HERE — the field was not printed**
Acknowledged in the kitchen	**Yes**	**Never reached**

What the agent says, and what it does not

Situation	The agent's answer
The sheet mentions the allergen	**"This dish's sheet mentions peanut"**
The sheet does not mention it	**"The sheet does not mention it"**
The customer asks for confirmation of absence	**Repeat the sheet + offer a dish whose sheet is explicit**

> **"The sheet does not mention it" is not the same sentence as "there is none".**
> Confirming an absence means committing a kitchen the agent cannot see.

Finding	Value
Allergy notes over the month	**41**
Customers pressing for direct confirmation	**9**

For the company to settle

Owner of the allergen sheets: _____

Maximum time to update a sheet after a recipe change: _____ hours

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
