Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **A card describes a recipe; a plate is the result of what happened in the kitchen that day.**

Wording	Used?
"This dish's card lists peanut"	**Yes, with the card's date**
"The card does not list it"	**Yes, with the card's date**
"This dish contains no peanut"	**Never**

What a card cannot describe

Kitchen event	Appears on the card?
A shared utensil	**No**
An ingredient substitution	**No**
A supplier preparation whose composition changed	**No**

A customer reassured by a machine is a customer who does not put the question to the person who can answer it.

State of the cards	Count
Dish cards	**140**
Composition not reviewed in over six months	**23**

Request a demo with your own documents

This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
