Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **A customer who accepts one amount and pays another has not accepted what they pay.**

Finding	Value
Orders where the billed total exceeded the announced total	31
Origin	A fee applied at a later step
Visible in the agent's data at announcement	No

The gap, even of a few cents, turns an order into a dispute.
