# One hundred and eighty blocks, thirty-four reviewed

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

**Fictional document — demonstration example**

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

**Fictional document**, produced for demonstration. **A library block does not break and appears in no alert.**

| Indicator | Value |
|---|---|
| Reusable blocks | **180** |
| **Median age** | **2 years 4 months** |
| **Oldest still in use** | **6 years** |
| **Reviewed after flagging** | **34** |
| **Describing an offer that no longer exists as such** | **6** |
| **Unused for 18 months** | **41** |

## What each block carries

| Element | Present? |
|---|---|
| **Last validation date** | **Yes** |
| **By whom** | **Yes** |
| **Flag beyond 18 months** | **Yes, without blocking** |

> **An old block is not wrong: it is simply unverified.**

A 180-block library where a quarter is never used is a library people search badly.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
