# Four elements, three hundred and eighteen imprecise requests

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

2,840 emails · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **A request is qualified, not a requester.**

| Element looked at | Describes what? |
|---|---|
| **A need expressed** | **The request** |
| **Enough precision to answer** | **The request** |
| **A deadline or constraint, where present** | **The request** |
| **The link with your systems** | **The relationship, not the person** |

## When those are missing

| Filing | Used? | Outcome |
|---|---|---|
| **Reject** | **No** | **—** |

| Filing | Used? | Outcome |
|---|---|---|
| **"Imprecise request"** | **Yes** | **To a human, with what is missing** |

| Of the 318 imprecise requests | Count |
|---|---|
| **Leading to an exchange** | **94** |
| **Leading to a deal** | **21** |

An imprecise message is not a bad prospect: it is a first sentence.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
