Eight hundred and forty-seven and nine hundred and twelve

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The discussion was about the reliability of the tools, when neither was at fault.**

Report	Value	What is counted
Management	**847**	**Orders invoiced between the 1st and the 31st**
Sales	**912**	**Orders signed, excluding cancelled**
Gap	**65**	**Signed and not yet invoiced**

Both reports displayed "Orders". The choice is in the query, not in the title — and a query does not get read in a meeting.

What changes

Element	Where it appears

The plain-words definition	**Beside the figure, not in an appendix**
The cut-off date	**Beside the figure**
The denominator	**Beside the figure**

Both figures now sit in the same report, with the 65 named: nobody had to choose, the gap was the information.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
