Three branches, eight point eight per cent off

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

34 branches · fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **The cause was not in the activity, it was in the collection.**

Calculation method	Result
Average over 34, absentees counted as zero	**8.8% below the real value**
Average over 31 reporting, 3 with no data	**Accurate, and the gap is visible**

The filling methods rejected, and what is done instead

Filling method	Used?	What it produces
The other 31's average	**No**	**A complete and wrong figure**
Their previous month	**No**	**Same**
Zero	**No**	**Same, but worse: it reads as a result**

Outcome for the 3	Result
Named to whoever manages collection, before circulation	**Yes**
Of which export broken for six weeks	**1**

Its zeros went unremarked inside an average. A visible gap gets fixed; a zero reads as a result.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
