Forty-one reports, two errors found by recipients

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **Nobody complained about being unable to check — which is exactly what worries.**

Element supplied with the report	Supplied?
The plain-words definition	Yes
The list of sources and their dates	Yes
The number of rows kept and set aside	Yes, with the reason
An extract of the calculation's rows	Yes, where the indicator allows

Errors found by recipients in three months

Error	Detectable in the result?

Filter excluding a customer category since a classification change	**No**
Join losing orders with no product reference	**No**

> **The figures were plausible.** The cost is longer reports and questions — the questions are the benefit, not the cost.

An indicator without its denominator or its period is not a summary: it is a different figure.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
