LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **Rephrasing a figure changes it; rephrasing an exception weakens it.**

Category	Treatment	Why
Figures with their unit	**Copied**	**A rephrasing rounds them**
Dates	**Copied**	**"Early in the year" is not 1 January**
Conditions and exceptions	**Copied**	**They reverse what they follow**
Definitions	**Copied**	**They fix the meaning of everything else**

The case that set the rule

Element	Value
Document length	**40 pages**
Summary length	**1 page**

Element	Value
Length of the vanished condition	**11 words, introduced by "unless"**
Effect of that condition	**It reversed the clause it followed**

> The summary was **faithful to 39 pages out of 40, and wrong on the one that mattered.**

The statement made before writing

Example: "**in one page I keep the decisions and the amounts; the justifications and the edge cases do not fit**". **You know what you will not be reading before you choose not to read it.**

What is summarised, and what carries a caveat

Document type	Caveat at the top?
Reports, studies, notes, minutes, documentation	**No**
Binding document	**Yes — "this does not replace reading before signing"**

For the company to settle

Default summary length: _____ page(s)

Document types carrying a caveat: _____

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
