Twenty-three tasks at ninety per cent

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for demonstration. **The percentage is declared, and it costs nothing to stay there.**

Level	What it demands
Moving to 100%	**Declaring it finished and risking contradiction**
Going back down	**Explaining**
Staying at 90%	**Nothing**

Finding	Count
Tasks at 90% for over six weeks	**23**
With no change of content over the period	**12**

What the agent looks at instead

The **date of the last real modification** — a document filed, an exchange, a sub-task closed. A task with no movement for three weeks is flagged, **whatever its percentage**.

What lay behind the 12

Actual situation	Count
Awaiting a decision nothing had yet put on an agenda	**7**
Finished without being closed	**3**
Having lost their purpose	**2**

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
