Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **A mandate is a written authorisation bounded in advance:** which actions, up to what amount, in which cases, for how long, and how it is withdrawn. **It takes intervention time from 3 h 10 to 22 minutes.**

The five bounds of the proposed mandate

Bound	Content	Why it is there
Scope	**Triggering an enhanced inspection · booking a CMMS slot on an already planned shutdown · drawing the wear part from the store and ordering a replacement**	Three precise actions, not a vague category
Cap	**€400 per intervention · €3,000 a month for the site**	**The maximum committed is known in advance**

Bound	Content	Why it is there
Condition	**Only on a signature already replayed across at least five cases from the plant's own history**	**Below five, the file goes to the production manager**
Term	**12 months, reviewed at the 3rd**	A mandate with no date renews itself by oversight
Withdrawal	**Immediate, on a simple message, with no reason to give**	**Reversibility is what makes the mandate signable**

What the mandate covers, and what it costs

Measure	Value	Reading
Interventions of this kind over 18 months	**141**	CMMS
Interventions falling inside the bounds	**96**	Amount and replayed signature both compliant
Monthly cost observed on the history	**€1,840**	**Under the €3,000 cap**

What speed earns, over a year

Measure	Before	Under mandate	Effect
Time from signal to start of intervention	**3 h 10**	**22 minutes**	—
Parts made while waiting, across 41 drifts	—	—	**≈ 27,000 fewer**

Measure	Before	Under mandate	Effect
Share of those parts that ended as scrap	**19 %**	—	**≈ €51,000 a year**

What stays signed, in all circumstances

Decision	Who signs	Time for the file to be ready
Press setting	**Production manager**	**Under 3 minutes**
Line stop	**Production manager**	**Under 3 minutes**
Ruling on a batch	**Quality manager**	**Under 3 minutes**
A range or a rule entering service	**Production manager**	**File costed over 18 months**

Review point at the third month: actions triggered, amounts, signatures involved, and the lead time actually observed. **The mandate widens or tightens on those figures, and withdrawal stays immediate at any time.**

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
