# The export ready — and the 3 corrections, fixed

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

> **Fictional document — demonstration example**
> This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

> **Fictional document**, produced for the demonstration. The firm, the claim forms and the counts are invented; no real person is named. **The export waits for the referent's move. No external write is made by the agent.**

## What each field of the export carries

| Element | Always present? |
|---|---|
| **The value** | **Yes** |
| **The position in the image** — page, zone, coordinates | **Yes** |
| **The sharpness level** | **Yes** |
| **The status**: read, settled by structure, or set before the referent | **Yes** |

**A field without a status is not written** — which is what makes a silent correction based on what the document ought to say impossible: it would have no column to hide in.

## The mandate proposed, and its cap

| Morning batch | Forms | Departure |
|---|---|---|
| **Every field passes the structure check** | **152** | **Under mandate: automatic departure, capped, traced, revocable with a word** |
| At least one field to confirm | **27** | Under the referent's eye |
| **Set one by one before the referent** | **31** | **Referent's decision** |

## The connection to the claims management software

| Item required before speaking of integration | Available to date? |
|---|---|
| **A version of the connector** | **No** |
| **A test suite** | **No** |
| **An acknowledgement that has been reviewed** | **No** |

> **Until those three exist, the integration is a project, not a feature — and that is said before signature, not after.** The export is returned in a format the firm's vendor takes; the direct connection is priced separately.

## The figure the agent publishes about itself, and what was done with it

| Measure | Value |
|---|---|
| Forms returned as read in full | **179** |
| **Corrected by a handler for a wrong value** | **3** — two registrations, one time of day |
| **All three were sharp** | **Yes** |
| **All three passed the structure check** | **Yes** |

Legal notice (in French): bluelemonagent.ai/mentions-legales

**Cause identified:** all three came from plates photographed at an angle, **where O and 0 merge in the official typeface**. Sharpness was therefore high and the value wrong — exactly the case confidence alone never catches.

| Correction applied | Effect measured |
|---|---|
| **Registrations are cross-checked against the firm's portfolio before being set** | **0 corrections on that field across the next 1,100 forms** |
| **Registrations absent from the portfolio are flagged** | **4 flags, of which 2 vehicles never added to the policy** |

> **That is why human review also covers a sample of the forms that were read, and not only those that come back with a question.**

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
