Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The texts are designated by their subject matter and not by an official reference: no real reference is cited here.** In a deployment, every line carries the exact reference, the publication date and the link to the text.

Why an effective date and not a publication date

Type of monitoring	Nature of the information	Suitable handling
Press, competitors	**A news item: it is worth something the day it appears**	One alert, at publication
Regulatory	**An appointment: the day of publication is the day the text does not yet apply**	**A calendar, with a return at every effective date**

The dates extracted from each text

Date extracted	What it triggers
Entry into force	The text applies
End of transitional period	**The old regime stops coexisting with the new one**
Compliance deadline	The time allowed to update runs out
First report or first filing date	A reporting obligation begins

The state of the portfolio

The reminders set
