**Fictional document — demonstration example**

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

**Fictional document**, produced for demonstration. **The exhibit number is the reference under which a document is filed: it is what lets a pleading cite it.** Every line here points to a number, a page and a reproduced passage, so that any statement can be checked in seconds.

## Where the clause relied on sits

| Number | Document and date | Location | What this draft carries |
|---|---|---|---|
| **41** | Framework contract of 12/03/2020 | **Page 9, second paragraph** | **The draft relied on by the other side** |
| **96** | Amendment of 04/11/2021 | **Page 3** | **Same clause, with a penalty cap absent from the first** |
| **12** | Draft sent by the customer, 27/01/2020 | **Page 8** | **Third draft, with no prior formal notice** |

## What indexing shows across the whole file

| Finding | Value | Practical consequence |
|---|---|---|
| Exhibits indexed | **14,200** | Searched on content, not on file name |
| Exhibits cited in the opposing pleadings | **118** | Each matched to its number and to the citing page |
| **Cited without appearing on any schedule served** | **6** | **Request for disclosure drafted, exhibit by exhibit** |
| **Time to find an exhibit** | **60 % → 7 %** | **of the time spent preparing a pleading** |

**The search runs on the content of the exhibits.** The file names in the store — « *letter* », « *annex 3* », « *scan_0142* » — carry neither the date, nor the sender, nor the subject; matching therefore rests on what the document says, and is then checked on the page given.

> **No statement is made without its number, page and passage.** That is what lets a pleading rest directly on the reference supplied, and lets counsel check every line without reopening the file.
