Sixty-three answers on a document that changed

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The change was seen by comparing the cited content with the current content, not by looking at the date.**

Element	Value
Modified	**7 weeks ago**
Update date shown	**The old one**
Answers citing the document	**63**
Concerning the modified passage	**21**

An employee does not question an internal document: they apply it.

What is done

Action	Done?
Flag to the author what changed	**Yes**
Mark the 21 answers as given on an earlier version	**Yes**
Contact the 21 people	**Impossible — their identity does not exist**
Publish a note visible to all	**Yes**

The note reaches the 21 without anybody needing to know who they are. That is the price of the missing link, and it is accepted.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
