Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **A FAQ that keeps a trace of a report becomes the place where people stop reporting.**

Nature	Count	Handling
The person's own situation	7	Directed to a person, with what to prepare
Belongs to a report	2	Taken out of the FAQ, handed to the right people

A general answer is almost always true and inapplicable: a right depends on length of service, on the contract, on an agreement, on family circumstances.

What the 7 are told

Element	Supplied?
---------	-----------

That the question is handled with a person	Yes
Exactly who	Yes
What to prepare beforehand	Yes
A general answer	No

What is not kept from the 2 reports

Element	Kept?
Their content	No
Their existence	No
Who made them	No
Their presence in the statistics	No

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
