1,840 questions · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **There is no view to open: there is nothing to join.**

What is recorded when a question is asked

Element	Recorded?
The question and its subject	**Yes**
The week	**Yes**
The day	**No**
The hour	**No**
The document served	**Yes**
The asker's identity	**No — does not enter the database**

If you want that view

What it takes	Basis
Rebuilding the collection	**The link was never written**
Prior information to employees	**Art. L1222-4, Labour Code**
Works council consultation file	**From 50 employees**

It is stated plainly **so the choice is made knowingly rather than worked around.**

Why a fine-grained statistic is enough to identify

Finding	Value
Publishable groupings covering one to four people	**17**

> "Three questions about carer's leave in department X" **has only one possible subject.**

What traceability would make disappear

People ask here what they dare not ask elsewhere. Some subjects arrive almost exclusively in the FAQ and never through named channels. **That is information about the company, not about them.**

For the company to settle

Named view wanted: yes / no _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
