Technical gaps — record

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

214 pages · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No compliance rate is produced.** An accessibility audit binds the authority, and a figure produced by a tool is not one — this record prepares the audit, it does not replace it.

What a tool observes

Family of gap	Occurrences	Pages affected	Measurable?
Insufficient contrast	**892**	147	**Yes**
Image with no alternative	**214**	98	**Yes**
Skipped heading level	**531**	121	**Yes**
Form field with no label	**210**	34	**Yes**
Total	**1,847**	214	—

What no tool observes

Point	Observable by a tool?	Why
Does the alternative describe what matters?	**No**	**Requires judging content**
Does the reading order make sense?	**No**	Requires following an argument
Does a complex table stay comprehensible aloud?	**No**	Requires listening
Does a long form stay usable by keyboard?	**No**	Requires trying it

> **412 images do have an alternative, so no tool flags them.** I read 40 at random: **17 say "image" or repeat the file name.** Technically compliant, practically useless — and exactly what an automatic compliance rate would hide.

What this record allows, and what it does not

Use	Possible?
Prepare an audit, and cost it	**Yes**
Fix 1,847 technical gaps	**Yes**
Produce a compliance rate	**No**
Draft the accessibility statement	**No**
Replace testing with the people concerned	**No**

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
