## Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

**Fictional document**, produced for demonstration. **The last two rows are the most serious:** the authority is publishing, in four languages, pages it judged it had to withdraw in French.

| Nature of the gap                                    | Pages    | Median gap      | Severity    |
|------------------------------------------------------|----------|-----------------|-------------|
| Divergent date or deadline                           | 4        | 57 days         | Medium      |
| Paragraph missing from translations                  | 5        | 94 days         | Medium      |
| <b>French version withdrawn, translations online</b> | <b>2</b> | <b>212 days</b> | <b>High</b> |

## The two pages withdrawn in French

| Page                  | Withdrawn from French on | Still online in    | For             |
|-----------------------|--------------------------|--------------------|-----------------|
| Closed support scheme | 14/01/2026               | <b>4 languages</b> | <b>206 days</b> |
| Discontinued service  | 28/12/2025               | <b>4 languages</b> | <b>223 days</b> |

**A non-French-speaking resident can today read a page describing a scheme closed seven months ago.** Withdrawing a French page triggers nothing on its translations — the same broken chain as for changes, with heavier consequences.
