Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **Two of the four flags concern material that says something false today** — a translation and an audio file. Those are the two that chase at 48 hours.

#	Flag	What triggered it	Volume	Recipient	Chase
2	4 translations out of step	French page changed 12/06	**57 days behind**	Editorial lead	**48 h**
3	Audio from an earlier version	Page changed 03/05	1 page	Audio producer	**48 h**
1	3 standard letters above the threshold	Readability threshold you set	**1,240 sent**	Issuing departments	7 d
4	2023 accessibility statement	2 redesigns since	Whole site	Accessibility officer + chief executive	7 d

> **The first flag does not go to communications.** A standard letter states what a service department decided; that department answers for it, and that department can settle the tone.

Flag 1 — the three letters, by volume

Letter	Sent since January	Opening sentence	Where the useful information appears
Notification of refusal of support	**612**	34 words, 4 subordinate clauses	**4th paragraph**
Request for further documents	**428**	28 words	**3rd paragraph**
Appointment summons	**200**	22 words	**After 6 lines**

All three share the same structural defect: the information the resident is looking for comes after what the administration has to say. That is not a vocabulary problem.

Proposed chases

Flag	Without action	Then
2 and 3	Reminder at 48 h	Chief executive at 96 h
1 and 4	Reminder at 7 days	Chief executive at 14 days
All	—	Monthly summary, by material

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
