Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Every measure comes from the authority's own logs — procurement logs, estimates and prices accepted, payment order log, register of candidate questions. The calculation can be redone line by line by the service, without us.**

Staff time returned to the service, at unchanged headcount — no post cut, no post created. It is the strongest argument to carry in front of elected members, and it is checked against the authority's own logs.
