Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The tender file is the set of documents given to candidates: it says what the authority is buying, on what terms, and how tenders will be judged. Each document is built on an updated standard document of the service, and the head of procurement settles it before publication.**

A tender file complete from publication is a procurement that does not drag on: every clarification obtained before publication is a candidate's question that will not be asked, and a postponement that will not happen.
