Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The calculation uses the statutory working-time basis: 35 hours a week, 1,607 hours a year.** The reference figure remains the one in hours; the conversion is there to make it speak in a meeting. **Rounding is always downwards.**

The calculation, item by item

Item	Annual volume	Before	After	Hours returned
Assembling scheduled admission files	**8,600**	**18 min — 60 %**	**3 min — 10 %**	**2,150 h**
Checking entitlements, unscheduled entries	5,600	6 min — 40 %	**1 min 30 — 10 %**	**420 h**

Item	Annual volume	Before	After	Hours returned
Preparing the billing	52 weeks	9 h — 100 %	**1 h 48 — 20 %**	**374 h**
Answers to patients and families, twelve subjects	12,400	5 min	**2 min**	**620 h**
Total	—	—	—	**3,564 h**

The conversion, on a single basis

Unit	Basis	3,564 hours
Week	35 hours	**More than one hundred and one weeks**
Working year	**1,607 hours**	**More than two years of work**

These hours are officer time returned to the service at unchanged headcount: no post cut, no post created. This is not a saving on staff — it is a desk that welcomes instead of keying in, and it can be checked against the hospital's own logs.

What those hours became
