Admission file — scheduled entry, document by document

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Day surgery, entry the next morning · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **No medical item appears in it:** the reason for the procedure was not passed to the agent. The expected length of stay is an administrative fact, and it is enough for everything that follows.

Identity — the five traits verified

Identity trait	Read on the document supplied	Returned by the service	Status
Birth name	Vasseur	Vasseur	**Match**
First names	Marie-Louise Jeanne	Marie-Louise Jeanne	**Match**
Date of birth	14/02/1951	14/02/1951	**Match**
Place of birth	Angers (49)	Angers (49)	**Match**
Sex	F	F	**Match**

The identity traits are the five items that make a file belong to that patient and no other. **A discrepancy on a single one suspends writing and sends the file to an officer**, with both versions set side by side. Here, all five match.

Entitlements and cover

Point	Status	What is prepared
Health insurance	**Entitlements open**, fund identified	—
Complementary insurer	**Policy identified**, cover up to date	—
Single room requested	**Agreement to cover missing**	**Request drafted: policy number, date, expected length — goes out on your approval**
Foreseeable out-of-pocket amount	Calculated, to be confirmed by the agreement	**The patient will know it tomorrow morning, not three weeks later on a bill**

The rest of the administrative file

Section	Content	Source
Address and contact details	Up to date, proof less than 12 months old	Document supplied by the patient
Person to notify	**Recorded, two numbers, confirmed by phone the day before**	**Declared by the patient**
Expected length of stay	One day, discharge the same day	Administrative scheduling
Transport	Accompanied return, companion declared	Declared by the patient

The person to notify is the one the hospital calls if needed; they are distinct from the trusted support person, whom the patient designates in writing with the care team. **The**

LINDBERGH FORMATION — Blue Lemon Agent — Companies register (RCS) Évry 817 946 114 —
Legal notice (in French): bluelemonagent.ai/mentions-legales

agent records the former; the latter belongs to the care team and to it alone.

The time this shifts

Item	Today	Prepared by the agent	Gain per file
Assembling a scheduled admission file	**60 % — 18 min**	**10 % — 3 min**	**15 minutes**
Across 8,600 scheduled entries a year	—	—	**2,150 hours**

> **The file is prepared, it is not approved.** The reception and admissions officer opens it, checks it and approves it before the patient's entry: **across 8,450 files, 8,450 human approvals logged.**

For the hospital to settle

Approval of next week's 34 scheduled entries — one by one / as a batch: _____

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
