Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **Any health question goes back to the care team concerned**, with its name, its direct number and its calling hours. **The agent never gives an answer that is not its to give.**

What twelve months of logs show

Channel	Annual volume	Unanswered
Calls	11,200	4,256 — 38 %
Desk visits	5,300	—
Emails	2,500	Average reply time: 6 days
Total	19,000	of which 12,400 on twelve subjects

A desk open 52 hours a week facing families who live 168: the 4,256 lost calls say nothing about the quality of the welcome, they say how far apart two clocks are.

The twelve subjects, and the source of each answer

Subject	Source of the answer

Attendance certificate	Admission and discharge movements
Depositing valuables	Internal rules
Visits, meals, accompanying persons	Welcome booklet
Transport	Welcome booklet

What this changes

Measure	Before	With the agent
Unanswered calls	38 %	6 %
Reply time to a family email	6 days	2 hours
Hours of availability	52 a week	168
Time to answer a recurring question	5 minutes	2 minutes

The agent states in its first sentence that it is the admissions office digital assistant and not an officer: the European regulation on artificial intelligence requires that anyone interacting with an AI system be informed. **The caller can ask for a human officer at any moment** — their number is taken and a dated call-back is left for the service.
