Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The agent states in its first sentence that it is a digital assistant of the office, not a customs officer. The trader may ask for an officer at any moment**, and the request is passed to the unit with the subject already noted.

The fourteen subjects — 4,080 requests out of 6,330

Subject	Requests per year	Where the written answer is
Documents expected with a declaration	612	Office sheet
Special procedures — repair, processing, storage, transit	548	Office sheet and designated official source
Proofs of origin	471	Office sheet
Filing an authorisation application	396	The office's list of documents

Subject	Requests per year	Where the written answer is
Amending a filed declaration	342	Office sheet
Forms in force and where to find them	318	Designated official source
Processing times	287	The office's register of deadlines
Contact details, opening hours and competent desk	264	Service website
<i>... and 6 more subjects</i>	842	Office sheets
Total	4,080	The answer existed: what was missing was availability

The remit rule — what goes to the competent desk

Request	Handled by the agent?	What the trader receives
General question on a procedure or a document	Yes	The answer, its source and the date that source was read
Progress of an individual file	No	The request goes to an officer, who answers within 4 hours with the answer already drafted
Subject falling to another service	Redirection	The competent service, its address, its deadline — a complete route, never an approximation
Request to speak to an officer	Passed on	The subject is noted, the call-back dated

Channels, and what they change for access to the service

Channel	For whom	What needs installing	What it costs
WhatsApp Business, website chat, e-mail, IP telephony	Traders and declarants	Nothing — no account, no app	Included in every plan
Microsoft Teams, Slack, mailbox	The office's officers	Nothing — their usual tool	Included, with no limit on numbers
Platform fees	—	—	WhatsApp Business charges per conversation: passed on at actual cost, with nothing added by us

A three-person company with no customs department gets, at 9 p.m., the same sourced and dated answer as the group with a law firm. That is non-take-up avoided and equal access — and it is not measured in hours, which does not stop it being the first visible effect for liable companies.

The measured result: unanswered calls **38 % → 7 %**, time to answer a written question **11 days → 2 days**, and the remaining **7 %** are those asking for an officer — they arrive with the subject already noted and the number to call back.
