Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The agent wrote the 6 updated versions**, each aligned on the version in force, **with the replaced line and the line replacing it side by side, and the date it was read. The service reads through, corrects with one word and settles the version — and it is that approval which makes an answer binding towards the trader who relies on it.**

What the 41 sheets produce each year

Family of questions	Written answers per year	Sheets involved
Special procedures — repair, processing, storage, transit	**412**	**1 sheet**
Proofs of origin	**268**	**1 sheet**

Family of questions	Written answers per year	Sheets involved
Documents expected with a declaration	**204**	**1 sheet**
All other questions	566	38 sheets
Total	**1,450 written questions a year**	**41 sheets**

Three sheets out of forty-one carry 884 of the year's 1,450 answers — 61 % of what the unit writes. Revising those first means handling the bulk of the output in twenty minutes of reading; the other 38 can wait until autumn.

The 6 sheets that predate the update amending them

Sheet	What no longer matches	Answers relying on it last year
Goods returning after repair outside the Union	**Points to the form since replaced**	**96**
Proofs of origin	**Address of a service that has moved**	**54**
Storage	Refers to an earlier version of the official source	27
Amending a declaration	Time limit shown before it was changed	18
Transit	Obsolete form title	12
Filing an authorisation application	Incomplete list of documents	7
Total	—	**214 answers relying on a superseded version**

These 6 gaps existed before the agent. They only show when the office's sheet and the official source are put side by side, **and nobody had the time to do it, because this work only shows when it has not been done. 31 traders called back to check: those 31 calls will no longer be needed.**

The act that stops this happening again

When	What the agent does	What is for the service
Every night	**It goes through the designated official sources and within 24 hours writes the updated version of any amended sheet**	**Reading through and settling the version**
On delivery	**It attaches the list of the year's answers that relied on the former version**	**The decision whether to inform the traders concerned**
Over 12 months	**23 evolutions logged, 17 already reflected in the sheets, 6 caught up**	**No sheet ages in silence any more**

To be settled by the service

Order in which the 6 sheets are revised, settled by the unit head: _____
