Tariff classification — 38 reasoned matches

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

26 confirmed by an officer, 12 set aside and filed into reading rules · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for the demonstration. **The agent does not classify: it matches. The classification of goods is settled by the customs officer**, on a question reasoned by a document and handed over with the office's comparable decisions.

Tariff classification is the coded ranking of goods: it is what commands the duties applicable and the formalities to be completed.

What is set against what, file by file

Item	Where it is read
The goods as described	**Invoice, technical sheet, composition, stated use**
The classification chosen by the declarant	**The declaration itself**
The classifications settled by the office on goods described in the same way	**Nine years of the service's decisions, with their dates**

What that gave this year

Measure	Value	Reading
Files where no term of the description matches the classification declared	**38 out of 3,600**	—
Confirmed by an officer	**26**	**The match held**
Set aside by an officer	**12**	**Filed into the reading rules: descriptions from that sector no longer come up**
Descriptions of fewer than six words	**23 out of 38**	**That is where it all plays out, and it is corrected at source**

What each question handed to the officer carries

Item	Content
The exact sentence from the invoice	**Quoted as it stands, without rewording**
The classification declared	As it appears on the declaration
The office's comparable decisions	**With their dates, so that the service answers itself in the same terms**
What is missing to decide	**A composition, a use, a technical sheet — and the request to the trader, written in the same movement**

What traders often do not know, although it protects them

Option	What it brings the company	What it brings the office

Legal notice (in French): bluelemonagent.ai/mentions-legales

Asking the administration for a classification decision binding it for future operations	**Certainty before the operation, not after**	**Correct declarations from the outset: the office's workload comes down too**
Companies concerned that did not know	**9**	**9 information letters written, ready to go**

The next step proposed: a vocabulary for describing goods drawn from the office's own decisions — which terms led to which classification —, **published to the 610 companies followed with a one-page note. A precise description at filing beats a match at checking stage.**

To be settled by the service

Date the description vocabulary is published: _____

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
