Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **This sheet contains no suggested diagnosis and no proposed treatment.** It contains facts, dates and numbers — enough to save a vet five minutes, not enough to replace one.

What is observed

Herd history since January

Date	Product	Animals named on the prescription	Milk withdrawal	Prescriber
12/03/2026	Antibiotic X	**2 animals — 4471 and 4489**	**28 days**	Dr Mbaye

Date	Product	Animals named on the prescription	Milk withdrawal	Prescriber
18/01/2026	Antiparasitic Y	All of group 1	6 days	Dr Mbaye

> **None of today's three animals appears on the prescription of 12/03.** That is a register fact, not an opinion: it is written here because it is the first thing the vet will ask.

Collection constraint, if a treatment were decided

Item	Data
Collection frequency	Every other day
Next collection	08/08/2026
Withdrawal period of the product in the cabinet	28 days for milk

That constraint is management data, not a treatment opinion. It is on the sheet because it bears on the vet's decision and on the running of the holding — not to steer the choice of treatment.

Same-day remote consultation

The herd health plan signed in January, page 2, provides for a same-day remote consultation for urgent cases in the area. The number and slots are on that page, reproduced in the appendix.
